Recommendation Letter for Mr Yunus Muheez Olanrewaju

I have known Mr Yunus Muheez olanrewaju in a variety of capabilities, for some years now, both as his Course Tutor and Head of Department. He was a great and excellent student during his program as an undergraduate in the University of Ilorin, Nigeria. Muheez graduated with a CGPA of 4.05/5.00 and was ranked one of the best graduating students in his class. He is efficient, competent and highly responsible. He often finished a task well before the deadline and his undergraduate project was a testament to his innovative problem solving ability and skills, where he successfully designed and implemented a Fibre-based Network System for his department, which helped in solving the challenges of Internet connectivity.

In addition, his moral character is very good and his excellent communication skills both verbal and written allow him to connect with all kinds of people. He has the ability to successfully carryout both independent and group academic research work. These capabilities to collaborate effectively with peers and mentors reflect his strong interpersonal skills and adaptability.

Beyond his academic achievements comes exemplary leadership qualities and strong commitments to community engagements demonstrated during his 4-year undergraduate programme. He actively contributed to and took part in extra-curricular activities, such as undergraduate mentorship programs, volunteer initiatives and research works. Mr Yunus Muheez olanrewajui has demonstrated exceptional leadership skills and genuine passion for making great and positive impact.

In view of the above, I highly recommend Mr Yunus Muheez olanrewaju for any endeavor that he may seek to pursue in your university/institution. If you have any further questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'F. Agbale'.

Dr. Adeniran Temitayo Caroline
